Stun Guns

Stun guns use high voltage and low amperage to temporarily disable an attacker for several minutes. The stun gun does not rely on pain for results. The energy stored in the gun is dumped into the attacker's muscles causing them to do a great deal of work rapidly. This rapid work cycle instantly depletes the attacker's blood sugar by converting it to lactic acid. In short, he is unable to produce energy for his muscles, and his body is unable to function properly. The stun gun also interrupts the tiny neurological impulses that control and direct voluntary muscle movement. When the attacker's neurological and muscular system is overwhelmed and controlled by the stun gun, he loses his balance. Should the attacker be touching you, the current will not pass to your body!

THE RECHARGEABLE 18 MILLION VOLT TRIGGER STUN GUN with flashlight and wrist strap disable pin by Safety Technology has a unique trigger design for easy operation and lifetime warranty. With a quick pull of the trigger you can have an attacker begging for mercy. It has a rubberized coating to ensure a nice, tight grip. The super bright 100 lumen flashlight will blind any attacker or it can be used as an everyday flashlight.

The stopping power on the Safety Technology TRIGGER stun gun is excellent with 4.8 milliamps of electrical current to bring down the enemy. No need to keep track of another charger since the recharger prongs are built in to each unit. The charge on the nickel-cadmium battery can last for up to 3 months depending on usage. The Trigger stun gun comes with a disabling pin wrist strap that is an added safety feature. With the strap around your wrist, if the stun gun were to be knocked out of your hand or taken away by a thug, it will be rendered useless.

It is available in 6 colors Black, Blue, Pink, Purple, Red, and Green.

The **DOUBLE TROUBLE STUN GUN** is like having two stun guns in one. ***Twice*** the contact - totaling 1.2 million volts - **twice** the stopping power! Very effective because of the space between the contacts. The greater the space, the greater the effect. Most stun guns only have ½ inches between contacts; the Double Trouble has 5 inches between contacts. It has a rubber coated soft contour grip to make it easy to hold and hang on to. The top mounted safety switch has a red LED on/off indicator that confirms the stun gun is ready to fire. 4.3 milliamps depending on the freshness of the batteries.

Uses 3 CR123A batteries **(included FREE)**. It also comes with a hand strap and a ***free*** Nylon Carrying Case with Belt Clip ($15.00 Value). *One year warranty.*

The **TASER® Electronic Control Devices** are non-lethal, self-defense alternatives that are almost 100% effective. They combine the injury reducing benefits of traditional stun technology with a quantum leap in stopping power via new Electro-Muscular Disruption (EMD) technology. In police studies, TASER®electronic control devices have a higher instant incapacitation rate than a 9 mm hand gun.

The TASER® control devices use replaceable cartridges which contain compressed nitrogen to deploy two small probes that attach to the main unit by insulated conductive wires with a maximum length of 15 feet. 50,000 volts travels over the wires and overrides the central nervous system providing incredible take down power. The energy can penetrate up to two cumulative inches of clothing.

These devices can stop a threat up to 15 feet away, allowing you a safe distance to protect yourself and your family from an attacker. If a close quarter defense is warranted, TASER® devices double as contact stun devices to repel someone as a powerful and unexpected backup capability.

Cartridges for TASER® devices have a unique serial numbers and are equipped with an Anti-Felon Identification system, which discharges 20-30 serialized paper tags when deployed. Law enforcement can later retrieve this confetti from the scene and contact TASER® International to get the name of the owner of the device, allowing police to track any potential misuse. Lifetime Replacement Guarantee included with each device.

The **TASER® C2 GOLD KIT™** has everything a user needs to carry and practice using the TASER® C2™ device. Utilizing the same technology as their proven law enforcement models, the C2™ has incredible take down power. Dimensions of TASER® C2™ device: 5½" × 2⅑₀" × 1¼"

Animal Repellents

The **GUARD ALASKA® BEAR SPRAY** ultra hot pepper spray has proven so effective at repelling bears, it is the only one registered with the EPA as a repellent for *all species* of bears! It is absolutely the most effective and powerful bear defense spray available. It is safe for the environment in that it does not contain flammable or ozone depleting substances.

The formula is scientifically proven superior, and it even works on wet bears because the specific gravity of the carrier is heavier than water.

Endorsed by the Alaska Science & Technology Foundation. 9 oz. Supersize. Range: 20 ft.

The **SUPER DOGCHASER** uses the latest ultrasonic technology in two ways to repel a dog. One is a discomforting but not harmful high frequency sound (20,000Hz - 25,000Hz), audible to dogs but not to humans. The second is a super bright LED flashing strobe that temporarily blinds and confuses the dog. Helps stop the approach of unwanted dogs up to 40 feet. Also has a training setting. Requires one 9 volt battery *(not included)* and can *also* be used as a flashlight.

The **PORTABLE WATER BOTTLE** with **BUILT-IN FILTER** turns rain, lake, and river water into drinkable water immediately. The water bottle is ideal for hiking, fishing, hunting, survival, military, foreign travel, and emergency needs. It removes 99.99% bacteria with 0.01 micron hollow fiber ultra filtration membrane and is BPA free. The design of portable water bottle filter is based on comfort and functionality so that it's as user friendly as possible. It will filter about 400ml per minute; the filter can filter 80L before the filter needs to be changed. The portable water bottle has an inlet that you can pump water directly into if used with the (Portable Mini Water Filter Pump). This would filter the water another time once you drink through the water bottle and save the life of the filter. It will hold up to 600ml of liquid.

PBWATERBOT• $48.95

PBPOUCH • $9.95

The **PORTABLE MINI WATER FILTER PUMP** can be used for outdoor adventures, fishing, emergency relief, camping, scouting, hiking, and military or whenever you may need safe drinking water. The Filter Pump provides the highest filtering accuracy. It can turn lake, stream, or standing water into safe and clean drinking water. It includes a three step filtration process that is unmatched.

First is a pre-filter to remove sand, rust and other large particles. The next step is a carbon fiber filter which eliminates dirt particles, odors and heavy metals. Contrast this to granular Activated Carbon (GAC) used by competitors, which is not nearly as effective and sometimes leaves little carbon balls in the filtered water. The final filter is a medical grade 0.01 micron UF filter. This filter compared to popular competing products which have only 0.2 micron filtering.

Comes with a carrying case, 2 hoses, 1 inlet hose with floater to keep pre-filter on top to retrieve the cleaner water, and 1 outlet hose. This unit can be used with the Portable Water Bottle *(Sold Separately)*. You can pump water into the water bottle for even more filtration.

"The Wildfire 18% formula is one of the hottest, and more importantly, one of the fastest reacting spray we've ever tested. This spray immediately permeates the pores of the skin, closes the eyes, and inhibits the respiratory system. What makes this product so effective is the purity of the pepper used in formulating this product. Only food grade 3 million or 4 million Scoville Heat Units pepper used." **- Larry Harris, Washington Labs**

WILDFIRE® 18% PEPPER GEL The Wildfire 18% pepper gel is a sticky pepper spray that comes in 3 convenient sizes. The 2 and 4 oz. models are easy to conceal and great for personal use and self-defense. The 9 oz. model can be kept at home and has a pistol grip for dead-on aim. Once sprayed this Pepper Gel sticks like glue to your assailant. If the attacker attempts to wipe or rub the Pepper Gel away it begins to permeate the skin leaving your attacker in pain.

If used properly indoors you don't have to worry about overspray, as it will stay in the direction where its sprayed and will not affect others in close proximity. Pepper Gel is ideal for a car, recreational vehicle, camping, or home.

This Pepper Gel has many convenient features including: longer range, stronger pepper mixture, sticks to the target like glue, it's also less contaminating, and non-flammable.

TELESPY™ INTRUDER ALERT is a clever and reliable combination of a telephone, a motion sensor, and a microphone. The TeleSpy™ is an ordinary telephone that doubles as a monitoring system. Simply enter any phone number you want the unit to call and turn the motion sensor switch to "on". Should motion be detected the phone will dial the number entered and upon answering you will be able to listen in via the amplified microphone on the unit.

The TeleSpy™ allows you to decide from a safe location if it is a friend or foe before you call the police. The listening period is about 30 seconds, then the TeleSpy™ disconnects and instantly re-arms to detect again and again. TeleSpy™ operates from any phone line, requires no installation, and is completely portable. No monitoring fees, no false alarms.

The 105db **HOMESAFE® WIRELESS HOME SECURITY SYSTEM** is an affordable solution to your home or office security needs. This easy to operate security system will sound an alarm and dial up to 5 preset phone numbers to let you know motion has been detected or a door or a window has been opened in your home. A land line with tone dialing is required. It works on all analog phone lines, Does not work on all digital phone lines. You can add multiple remote's for additional family members.

HOW IT WORKS:

1. When the door/window sensor or motion detector is triggered, it sounds an alarm and sends a signal to the base unit.
2. The base unit dials the first telephone number of your programmed list.
3. The person answering the call will hear a prerecorded alert message.
4. That person will have the option to listen in on the room, broadcast their voice through the base unit, or disarm the system.
5. If there is no answer, or if the person doesn't disarm the system, it will dial the next number on your programmed list.

Includes: 1 base unit with AC adaptor, 1 window/door sensor (wireless transmission up to 250 feet), 1 motion detector (range 8 yards) and 1 remote control with panic feature for arming and disarming the unit. You can add 14 additional sensors. A total of 16 sensors can be used for detection. Additional remote's and sensors are available.

More than 900 children between 1 and 14 die each year in drowning accidents.
In California, drowning is the number one cause of accidental death for children 1-4 years of age.

But, do you really need these statistics to convince you to do everything you can to prevent this from happening to your child or grandchild?

The **SAFEFAMILYLIFE™ POOL ALARM** is an electronic monitoring system that automatically sounds an alarm when children or pets fall into your unsupervised pool. It's portable, self-contained and light weight. The unit is simple to operate. Entry into the pool will be detected by the Pool Alarm's electronic sensor, triggering a loud pulsating alarm at the unit and inside your house from the remote receiver.

The Pool Alarm installation is very easy. It sits on the pool deck as shown in the picture. It is very easy to use with control button operation and will automatically arm the unit once you are done swimming.

The Pool Alarm comes with a remote receiver with flashing light which can be mounted in your home up to 300 feet from the main unit. It comes with a 12 volt power supply. The Pool Alarm uses 6 D batteries *(not included)* which should last approximately one year. There is an audible low battery indicator which will sound at the pool side alarm and the remote receiver.

VOICE ALERT SYSTEM-6 is a new annunciation system featuring wireless PIR (Passive Infrared motion detector) sensors, transmitters and a remote receiver/speaker base unit. Users record their own alert messages and are then notified with their own voice message when activity in a monitored zone is detected.

For instance, Zone 1 could be for a driveway alarm - "Car coming up the driveway!" Zone 2 could guard a side entrance against intruders. When this PIR detects movement the Base Unit could play back "Someone's on the patio" and trigger a floodlight using one of the four "C" relays included on the base unit. Zone 3 could be used by the entrance to the backyard pool. When triggered, this Zone plays back "Kids are by the pool." Zone 4 might be used to detect movement in your prized garden. You could record "Is there a deer in the garden?" to be played when the sensor for this zone is triggered near your garden. System-6 can monitor all four zones simultaneously and still have two additional zones available (along with their own custom messages), if required.

The **MINI ALERT ALARM** uses passive infrared technology to protect a room from intruders. Producing an infrared triangle, the Mini Alert creates an unseen barrier that's impossible to penetrate without setting off the alarm! Battery operated, the Mini Alert needs no wiring and can be easily moved to a new location. Chime 95db Alarm 120 db. Mounting bracket included. Uses 3 AA batteries *(not included).*

MINI2040 • $15.95
4⅛" × 2 3/16"

The **DOOR GUARD ALARM** is a very versatile vibration alarm. Ideal for home, office or travel. This alarm requires no installation, simply hang it on any doorknob and it instantly detects any vibration. When the alarm is tripped, it will emit a 98 dB alarm for 20-30 seconds, then will reset in 3-5 seconds. The sensitivity of the alarm is easily adjusted with a screwdriver. The Door Guard can also be used as a flashlight. Uses 2 AAA batteries *(not included).*

HP-98DG • $12.99

The 105 db **MOTION ALERT ALARM** passive infrared system detects motion in any selected area. It mounts easily (vertically or horizontally) near any entry area and is battery operated, eliminating any need for wiring.

Unit can be coded with a personal security code and can be set to utilize a two-tone entry chime, instead of the alarm sound. Mounting screws included. 9 volt battery (not included).

HA-125 • $32.95
3½" × 5½" x 2"

This multifunctional **SAFEFAMILYLIFE™ BARKING DOG ALARM** system uses an electronic radar-wave sense control. This technology allows it to "see" through wood, cement, brick, glass, etc. When an intruder enters the guarded area, it automatically begins barking like an angry dog. From outside, it sounds like you have a very unfriendly dog inside. It also can announce visitors with a chime or alarm.

The radar sensitivity is adjustable from 10-20 feet, volume is also adjustable. Stands 9 inches tall. Powered by AC power supply. Also takes 8 AA back-up batteries *(not included)* in case of power loss. Unit needs to face in the direction you want to detect motion. Detection is limited from the sides and rear. The included remote control lets you Arm and Disarm the system, as well as set off a Panic alarm. You can also connect up to 16 additional sensors to monitor larger areas; *HA-MOTION* or *HA-SENSOR*.

CHILD GUARD PANDA - Have you ever experienced the terror of thinking your child is missing or lost? We have all had the gut-wrenching feeling of turning around on a busy street and finding that our child is nowhere in sight. Now this could be prevented with the new improved CHILD GUARD PANDA. Worn by the child, the cartoon animal-shaped transmitter sends a constant signal to the receiver, which is held by the adult. The signal is adjustable - from a distance of 3 to 21 feet, so when the child goes beyond the set distance, the adult's receiver starts to beep, letting them know that the child is starting to wander off. The Child Guard is worn on the child's wrist.

SafeFamilyLife™ Safety Kits

SAFEFAMILYLIFE™ combines our products with product instructional DVDs, manuals, and new extensively researched reports into special purpose "kits." This is an innovative, unique approach unlike anything currently available in the personal/family security field. SafeFamilyLife™ is all about its name: giving families the information, education, motivation, resources and highest quality affordable products they need to create a safe family life at home, while traveling, for their children away at school, or for their senior parents living alone. With today's economy more and more people are concerned about their safety. People still need help protecting themselves, their loved ones and their property. 1 in 6 women will be sexually assaulted in their lifetimes. College age women are 4 times more likely to be assaulted. People are not provided with any training in Personal, Family and Home Security, and if they looked for products on their own, they had no one source and no knowledgeable assistance…until now. Simple, fact-based education on these matters can and does save lives! All products are non-lethal, safe and covered by warranties. All products backed by satisfaction guarantees.

Instructional Fighting DVDs

FRANK CUCCI - Spent 12 years as a Navy SEAL (including four years in SEAL Team Six), the most elite division in the SEALS - the guys who always get the juiciest and toughest assignments.

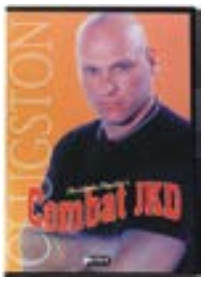
UNARMED COMBAT COURSE - You'll learn skills specifically designed for situations where top soldiers suddenly found themselves without a gun or even a pocket knife - possibly wounded - surprised by ambush - out-numbered - and with the violence around them reaching the point of life and death! Minimal athletic ability is required, and each move must have a high consistency of success.

DVD-CUCCI • $69.00 1 Hr. 55 Min.

VLADIMIR VASILIEV - A former Russian soldier in the elite Spetznaz secret service of the Russian Army (so well-trained in every aspect of combat that even the dreaded KGB was terrified of them). When Vladimir escaped to Canada from Russia, everybody wanted him - including the U.S. military, eager to learn his combat secrets - and the U.S. military still doesn't have these amazing fighting secrets! You cannot find a qualified teacher of these vicious hand-to-hand fighting secrets *anywhere* in the United States. This stuff is hands-down the best-kept secret among insiders in the world of serious combat.

RUSSIAN FIGHTING SYSTEM - This unique and almost lost art is the only hand-to-hand fighting system taught to the feared and deadly Russian Spetsnaz soldiers!

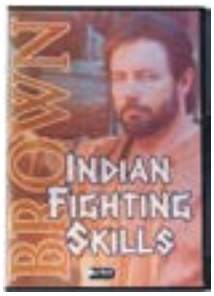
DVD-RUSSIA • $97.00 4 Hrs.



CHRIS CLUGSTON - As a bouncer, kick-boxer, shoot boxer and experienced street fighter, Christopher Clugston knows how stupid it is to master any martial art style that has "rules". The real world of street fighting has no rules!

COMBAT JKD - Chris is very aggressive in his teaching methods. He demonstrates running attacks and how to deal effectively with multiple attackers. These techniques are quick and easy to learn and don't necessarily require a partner to practice and master them. This is the most honestly brutal, BAM-BAM-and-you're-done kind of fighting you could ever imagine … and the best part is, it's especially easy for "non-fighting" types of people to master quickly!

DVD-SECRET • $97.00 3 Hrs. 45 Min.



RANDALL BROWN - When Randall Brown discovered his heritage (he's Cherokee/Apache/Irish) he began a journey that took him all over the U.S. and Canada, to reservations, small towns, and finally to the Great Plains, to learn everything he could. **INDIAN FIGHTING SKILLS** - There's not an ounce of "Asian Martial Arts" to this system. This is nothing but pure, distilled, untouched "Plains Indian" fighting techniques. Astonishing hand to hand "instant take out" moves that you've never seen before, it's what Plains Indian Braves used every day to survive in the brutal reality of their daily lives.

DVD-INDFIG • $97.00 2 Hrs. 15 Min.

BOB TAYLOR - Was born a little man with a smart mouth and a bad attitude. So he had to learn how to fight - and win. Perhaps the best self educated street fighter around. He developed his unique style of dirty fighting during his 40 years of formal training. He's worked as a private eye, a personal armed bodyguard to superstar rock groups (like Aerosmith, the Who and Led Zepplin), and a canine handler for 11 separate jurisdictions.

SMALL MAN'S ADVANTAGE - In the most sizzling display of raw fighting savvy you'll ever witness, little man Taylor *proves* you can quickly learn, and just as quickly use, his personal Bag O' Nasty Tricks to completely obliterate someone twice your size. In fact, these vicious tricks work best when you're outweighed, outsized and out-muscled by your opponent!

DVD-SMALL • $69.00 1 Hr. 46 Min.

DELTA SEAL CAMP - This is a series of elite combat courses that were hosted by actual Navy SEAL and real U.S. Army DELTA veteran trainers. DELTA SEAL CAMP - For 4 incredibly intense days, shared everything they knew about close-quarters weapons and unarmed combat. We brought together former Navy SEALs and DELTA Force soldiers to teach their spec-op level armed and unarmed skills to a small group of ordinary civilians for 4 intense days, word quickly got back to Washington - and the whole thing sent shockwaves throughout the entire Defense bureaucracy! These camps were the most complete training in elite level military hand-to-hand and firearm expertise ever offered to anyone outside the Special Forces.

DVD-CAMP • $177.00 7 Hrs.

JACOV BRESSLER - Began his training at age 16 with an Argentinean master instructor who is a direct disciple of legendary Okinawa Karate master Gogen Yamaguchi's Son. That style - Goju Ryu Karate - is still one of the most "hard core" martial art styles in the world today.

FAST AND FURIOUS - There are two DVD's in this set. First, Jacov reveals his most important "single lesson to street level fighting mastery" material. This is the "speed-learning" shortcut hand-to-hand tactics he teaches cops and soldiers who don't have time for practice. Second, he does the *best* job of teaching civilians about improvised weapons. (This is a SPECIAL ART, and one that Jacov perfected long ago, during the days where he *had* to fashion weapons out of thin air to survive.)

Last, Jacov insisted on providing an extra lesson showing you how to use these simple new skills in *real* situations. It was expensive setting up these real-life scenarios, but oh my god it was worth it. Just watching these lessons will give you access to stunning new (and very simple) fighting skills that will make you almost *invulnerable* in any real-world fight. Best part: You can learn it super-fast.

DVD-FASTFURIOUS • $69.00 3 Hrs. 27 Min.

BEN COOLEY - Is a professional SWAT Team Trainer and a key member of an elite Federal Tactics Team that protects sensitive government installations. He has over 14 years of intense hands on experience in hostage rescue and SWAT operations. He's also a Two Time Soldier of Fortune Three-Gun Champion He's won 7 separate State and Regional Gun Championships - a two-time Championship Team Leader at the USPSA National Championship.

FIGHTING MINDSET - In case you didn't know, home invasions are the most deadly and most horrible of all attacks. It's the surprise that can defeat you if you don't know how to deal with it. Bennie gives you special skills that not only prepare you to respond to a surprise attack - but you'll know how to take control over the situation in the blink of an eye!

DVD-MINDSET • $97.00 4 Hrs. 30 Min.

NIR MAMAN (pronounced Near) - Is a former Israeli special forces commando and top hand-to-hand combat instructor. His long-range reconnaissance unit (the feared Sayeret Golani) roamed deep into enemy territory, fighting, capturing and eliminating terrorists and insurgents. Usually, there were only 4 men in his unit. Alone, without back-up, miles from safety - and with less than one-fourth the training U.S. Spec Op soldiers receive - these men faced constant, unrelenting and vicious counter-guerilla combat. These men did not have the luxury of long training. Israel has a limited population, and the men who join the Special Forces must get up to speed *faster* than any other soldier in the world.

ISRAELI CONNECTION - This is a 2-disc package that covers hand-to-hand fighting, including moves no one outside the Israeli Spec Op world has ever seen before! The ground fighting video and the knife and gun disarming lesson.

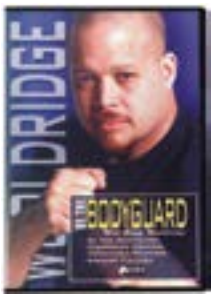
PAUL VUNAK - Without a doubt one of the most respected and dangerous men in the world at hand-to-hand combat. He specializes in teaching Navy SEALS, FBI, and CIA and a dozen police department SWAT teams how to be the most deadly and efficient soldiers on the planet. Paul's fighting systems can be learned quickly and used with brutal efficiency!

STREET SAFE - This package presents the eight basic tools of JKD that will get you out of 95% of any street confrontation. The instruction is clear, concise, and easy to learn.

R.A.T. FIGHTING SYSTEM - Paul originally designed this R.A.T. fighting system for "hot duty" professionals who had zero time to practice, often had no previous fighting skills, but whose lives depended on learning a simple "end the fight right now" set of skills.

SHANNON STALLARD - Mr. Shannon Stallard is a former bodyguard and leading expert in hand-to-hand and weapons tactics. He specializes in training those who need effective skills in life and death situations. With a lifetime of study, holding teaching positions in numerous styles of martial arts, you can now learn from his elite, hard-won expertise that others have come to trust with their very lives. **THE ADVANCED COMBATIVE TACTICS (ACT)** system is a set of nine expandable and evolving strategies that transform you into a close quarter's battle expert. Whether your intent is self-defense, arrest and control or threat elimination the act system has it all from hand to hand to small arms. On this DVD you will learn: Tactics for multiple attackers, psychological tools that prevent freezing and deadly mistakes, devastating strikes that work in any street encounter to diminish the power of a bigger person through control of the spine and much, much more.

DVD-ACT • $69.00 1 Hr. 35 Min.



GREGG WOOLDRIDGE - Is one of the nicest guys you'll ever meet, but he's also known as one of the baddest cats walking the planet. He was a street cop for 11 years before joining the most famous executive protection group in the world. He protected not just top executives of big companies, but also musicians and performance stars from all parts of the entertainment world. Remember the gangsta rapper Biggie Smalls? Well Gregg quit in disgust when his warnings of sloppy security around the star went unheeded. Less than 24 hours later, Smalls was murdered by rival gang members. It all pissed Gregg off to the point that he decided to do something drastic - make his simple and highly effective fight strategies available to average civilians. Guys who will *listen* and do what it takes to protect the lives of their loved ones.

BE THE BODYGUARD - This special training is *not* hard and it's super easy to master. You'll learn how a street-savvy fighter uses the escalation of force to overwhelm larger opponents, even when you're surprised from behind. You'll also learn how street-wise fighters use psychology to scare even tough, big men, and how to make yourself impossible to strike. You'll be the one that is safe and be able to help while everyone else is panicking. The improvised weapons instruction is very cool and it means you will *never* be without a weapon, no matter where you are. Advanced gun disarmament too. He's had to do it. This is not theory. This is what works, and what you *need* to know.

DVD-BODYGUARD • $69.00 4 Hrs. 6 Min.

JIM WEST - Is simply one of the most feared men on earth. He has earned a half dozen medals in Iraq during Operation Desert Storm, has spent 15 years in the black bag arm of the Green Berets, trains special forces and Justice Department agents in hand-to-hand combat, and has actually been in over 600 bloody hand-to-hand street fights - never losing - ever!

FIGHT TO WIN - Jim quickly teaches you the Dark Art of truly nasty, vicious no-rules fighting. He teaches you how to punch, movement patterns, kicks, choke holds, joint manipulations, pressure points and floor moves, plus much more

Security Scanners

The **CSI PRO-POINTER™ with HOLSTER** Pinpointing Metal Detector speeds the search and recovery efforts of crime scene evidence. This highly–sensitive pin pointer has both audible and vibrating alarms and requires no tuning. Proportional alarms increase in intensity based on target's proximity to quickly pinpoint weapons, shell casings, projectiles and crime scene evidence. Search walls and tight spaces for hidden items like metal pipes or studs, can also check wood for nails. Features a scraping blade to sift through soil and is also water resistant - can be washed in running water or used in the rain.

Automatically adjusts - Microprocessor circuitry ensures maximum sensitivity with no tuning necessary. Pinpointing tip and 360° side scanning capability in one pin pointer. Scan with the side of the detector to quickly cover an area, then use the tip to precisely pinpoint the target. Static detection (no motion required) speeds target recovery. LED flashlight assists in low light recoveries. *Woven belt holster and standard 9v battery included.*

The **INTELLISPY HD 4 CHANNEL DVR** offers the best viewing and recording clarity at an affordable price. These HD cameras and DVRs give you very clear images even when an object is moving. Analog systems and other HD systems have a blurry image when a moving object is in the field of view. The new 3G SDI technology allows for a crisp clear picture of the movement. This is perfect for viewing license plates and you can even see someone wave at you, all without the trailing image effect. All 4 channels display and record in crisp and clear high definition 1080p (1920x1080). This is a 4 channel standalone DVR with an embedded Linux operating system but is programmed and is designed to operate like a PC based DVR. The HD DVR is programmed and controlled with an easy to use GUI (graphical user interface). This system comes with a remote and mouse for easy operation. It uses H.264 compression which is a high quality compression and uses less storage space to maximize your hard drive usage. You can record up to 11 days of constant recording with a 2TB hard drive. The DVR can be accessed remotely to see live video using a smart phone, tablet, and iPad. Remote set-up is fairly easy with limited network knowledge. Just forward a couple of ports in your router and then take a picture of the QR code on the DVR to connect your device to the DVR. You can also view live video using most web browsers. The 4 channel HD IntelliSpy DVR like many other DVR's has motion detection recording so you don't eat up a ton of storage space and makes it easier to find an event rather than skimming through hours of video footage.

Professional Cameras

INTELLISPY FULL HD WEATHER PROOF BULLET CAMERA with 135 feet of night vision and 3G-SDI technology. The 3G SDI technology gives you crystal clear picture. For example, analog cameras are blurry and grainy, with an analog (700TVL camera) system it is hard to recognize facial features as the moving object will be blurry and have a trailing image effect. With the 3G SDI you get no trailing when an object is moving fast in the field of view. This HD 3GSDI camera will make out license plate numbers and allow you to actually see the face of an intruder all while using coax/ RG59 cable. Spools of cable can be found in the camera accessories section.

It also has Smart IR and WDR technology that many analog cameras don't have. Smart IR prevents too much IR exposure on a close target. When you have too much IR exposure the close object can be washed out and will not be very clear. The Smart IR function allows the IR strength to adjust to the environment and gives you a clear IR image. The WDR technology allows the camera to automatically adjust to the ambient lighting in the environment and give you the clearest HD image. The IntelliSpy BC-HD135-DN camera is great for indoor or outdoor applications. It comes with a 3.6-16mm varifocal lens and has a heavy duty mounting bracket with a hidden cable design so it mounts easily to ceilings or walls. This camera will ONLY work with HD DVR's.

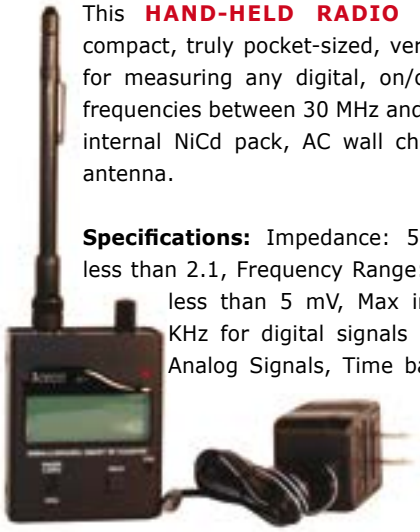
Bug Detectors - Phone Recorders - GPS

If you think that someone is listening to your conversations or is watching you with a hidden camera, a bug detector will help you find the hidden microphone or camera. Our bug detector acts as a sweeper. You can turn it on, walk through a room and find any hidden devices. If any frequencies are detected the bug detector will notify you. The frequency detector must be within one foot of a wireless device before it can determine the frequency. Both detectors have a strength meter which measures how close you are to the bug. When searching your home or office for bugs be sure to search everywhere. Bugs come in many shapes and sizes some being smaller than a penny.



This **HAND-HELD RADIO FREQUENCY COUNTER** is compact, truly pocket-sized, versatile test instrument designed for measuring any digital, on/off keying or analog signal on frequencies between 30 MHz and 2.8 GHz. Comes complete with internal NiCd pack, AC wall charger and 7 section telescopic antenna.

Specifications: Impedance: 50 Ohms (BNC Socket) VSWR less than 2.1, Frequency Range: 30 MHz- 2.8 GHz, Sensitivity: less than 5 mV, Max input: 15 dBm, Resolution: 10 KHz for digital signals or On/Off Keying & 1 KHz for Analog Signals, Time base: Less than 1 PPM at room temperature, Weight: 210 g, Size: 80 mm high x 60 mm wide x 31 mm deep, Case: Stamped aluminum with black anodized finish, Batter: Internal 4 x AA 600 mAH NiCd pack, Power: 9VDC 300 mA

Features: 7 digit Liquid Crystal Display, Frequency counter for digital, on/off keying and analog signals with a minimum pulse width of 250 uS., Ultra sensitive synchronous detector - 16 section bargraph to show RF signal strength (-35dBm to 0 dBm), Two range positions - the 1 GHz position for frequencies between 30 MHz and 1 GHz and the 2.8 GHz position for frequencies between 500 MHz and 2.8 GHz., squelch adjustment for input signals, hold switch to lock display, low battery indicator, vibrating alert, low power consumption (Average 5 hour battery life), supplied with NiCd pack, AC wall charger and telescopic antenna (143 MHz to 460 MHz), 1 Year Warranty

Frequently Asked Questions About Cameras

Do the HD DVR's have the ability to be viewed remotely from a phone or computer?
Yes the HD DVR's have the ability to be viewed remotely from a phone or computer.

Are complete surveillance systems available?
Yes, however everyone has different needs. We have 3 types of HD cameras that can be used when to create a surveillance system. Choosing the right camera for each location is important to ensure the correct coverage for the job. Just choose your cameras, DVR, and cable length needs.

What is a WiFi camera?
WiFi security cameras connect to a network and give you the opportunity to monitor your office for possible break-ins or disturbances. The WiFi cameras offer a live feed so you can check in from your phone or computer.

For what applications should I consider IP?
IP cameras should be considered for large installation sites that already have a high bandwidth network installed - especially if the cameras will be spread out over a wide area. For example; Hospitals, Schools, etc. Pricing available upon request and we will find a solution when IP cameras are required.

What features should I look for in a HD CCTV Digital Video Recorder (DVR)?
All HD DVRs are definitely not made equal! There are several factors that are critical to consider when purchasing a HD DVR, especially when comparing price. The most important features to look at are the number of cameras supported, frames per second (fps), compression technology, hard drive space, network connection / remote viewing capability, motion detection, scheduling, and ability to save video and audio to a flash drive.

Using RG59 Cable vs. Plug and Play Cable?
There are two basic approaches to hooking up security cameras and digital video recorders (DVRs). Plug and Play cable can only handle signals from older model analog cameras. RG59 Siamese cable is used in most installations and works with HD over coax cameras. Both cable types combine a cable for the video and a cable for the power. The RG59 Siamese cable is more heavily shielded so it's more durable and can be run longer distances (up to 300ft on HD cameras without a repeater). Its heavier shielding makes it less susceptible to interference. Florescent lighting in particular can interfere with camera signals. The RG59 is purchased in 500 or 1000ft. rolls and each camera run would be cut to the exact length needed. Since you need to cut the cable and attach the connectors, it is a little more involved to install.

Which type of Security Camera should I use?
A security camera can come in many different styles including dome, professional (bullet), infrared and hidden. The security camera that will work best for your application will depend on several factors such as whether you will use the security cameras inside or out, during the day, night time, or both.

Can I get audio in my hidden camera?
No you cannot. According to United States federal laws, audio should not be used in a surreptitious manner. One example of surreptitious interception is audio in a hidden camera. This includes pinhole board cameras and all covert or hidden cameras. Audio in a hidden camera or board camera is only available to law enforcement agencies. Title 18, Section 2512.

What is a wired Security camera?
Wired cameras have a video cable that runs from the camera to your recording or viewing device such as a DVR or monitor.

How many hours will a DVR record?
The amount of time a DVR will record is based on the size of the hard drive, the number of cameras recording and the frames per second. A 4 camera stand alone HD DVR with a 1TB hard drive will record for 5.5 days of constant recording and around 2 weeks of motion recording. A 8 camera stand alone HD DVR with a 2TB hard drive will record for 5 days of constant recording and around 2 weeks of motion recording. A 16 camera stand alone HD DVR with a 2TB hard drive will record for 2.5 days of constant recording and around 1 week of motion recording.

What is a varifocal lens?
A varifocal lens is one where the focal length of the lens can be varied. This is a fancy way of saying it is a zoom lens. Most varifocal lenses have, and in almost all circumstances should have, an auto iris feature.

What is a fixed lens?
A fixed focal length lens cannot zoom. The focus is fixed. A fixed focal length lens usually allows more light to pass through the lens at a given focal length than a varifocal, or zoom lens. This can be important in low light situations.
